JOY KOLLER
EDUCATION CONSULTANT
PROJECT DIRECTOR

As a President of the University of Quintana Roo, Campus Playa del Carmen and on behalf of our students, I would like to thank the foundation EEECF for your kind contribution to our student's population. Our students as well as their English teachers welcomed your English Program, Little Readers, with such an enthusiasm. They have been using it regularly, as a whole group activity and independently in our English lab. They have been profiting from using your software independently to practice their English skills. As I just mentioned we count with an English Lab, with just enough amount of programs to serve our students. Thanks to Little readers students from our four bachelor's programs, can go to the English lab and practice vocabulary, phonics, word writing and pronunciation. I have been informed by our English coordinator, Claudia Salazar about the progress that our introductory and Basic English students have been making. We heartily thank EEECF for the opportunity given to our students to practice their English outside their classroom. Ever since you gave us the opportunity to use your software, teachers have been planning their lessons adding extra activities with little reader's activities to their lessons. Moreover, EEECF software helps our educational programs to improve their quality. Playa Del Carmen, Quintana Roo in Mexico is a tourist destination where 90% of its economy is based on tourism. Our English students have profit enormously from your English program; it gives them an extra resource to practice. Once again, my most sincere thank you for providing our students with a tool which would help them to improve themselves, in order to build a better and brighter future in a community such as ours, where English is the main language spoken by tourist and the one that would determine their future employment

opportunities. Last but not least, we would like to thank Joy Koller, EEECF project director in Mexico, for the opportunity given to our students, and for helping us build this friendship between the foundation and our University.

Sincerely

Atentamente
